

"When it comes to life  
the critical thing is  
whether you take things for granted  
or take them with gratitude"

Thank you for your love & support.  
It's wonderful to know that there  
really are angels among us.

Dr. Bissell,

On this journey as a breast cancer warrior and hopefully a survivor, please know that the generosity and the efforts of the Statesboro/Bulloch County Breast Cancer Foundation have made a difference in my life, has helped me in my journey and is helping others diagnosed with breast cancer. So far this year, I have participated in three breast cancer run/walks and yours was by FAR the most organized & the most FUN! So thank you for sharing & supporting all of us pink warriors!
